
Ski tour Velký Javor (Germany)

The trip is CANCELLED due to the bus not being full!

Arber gives off a spectacular, almost alpine impression right when you arrive at its foot - capacity parking lot, boarding terminal with cash registers, wide tracks stretching over most of the area of the felled slope. The backbone of the area is a modern cable car from which you can go to any of the local tracks. She is assisted in capacity by a parallel covered 6-seater Nordhang, and in the lower, training part of the slope, there is also a short express 6-seater Sonnenhang, equipped with a child lock and without a footrest for safer transportation of children.

For downhill skiers, there are 8 ski slopes of various levels of difficulty, a six-seater cabin lift, 2 six-seater chairlifts and several lifts in the Velký Javor area. (Refreshment options both at the bottom station of the cable car and at the top of Javor.) There is also a toboggan run and a rental shop for all equipment for skiers and sledders. Season tickets are deposited when purchased, and the deposit is returned when they are returned. Info: www.arber.de and <https://snow.cz/stredisko/160-arber>.

For cross-country skiers, the nearby Bretterschachten area has more than 100 km of groomed cross-country tracks for various techniques. The area has a building with changing rooms, storage (coin lockers), refreshments, toilets and other services (room for ski repairs). Snacks are also available at other places along the tracks.
