
Development Beyond Studies

The knowledge and skills you gain in your field of study at Charles University are only a small part of what you will take away from your university experience. Make the most of your time at university and develop **skills** that will **benefit** you regardless of your degree programme – communicating **effectively**, **collaborating** with others, handling **challenging situations**, taking **care** of yourself, and planning your next steps.

Come and Discuss Your Path

We're here to help you achieve your personal, academic, and professional goals effectively.

Volunteering at Charles University

We'll connect you with organisations where you can develop your potential while making a positive difference. It's up to you whether you volunteer at a cultural institution or get involved in helping seniors, for example.

As a volunteer, you'll receive a certificate linked to Europass, allowing you to present your experience in a format recognised internationally.
